Fire Boss Proves Hero As He Risks Life Three Times

Five Badly Burned in Disaster — One Man Crawls to Safety, Then is Killed By Damp

HINTON, March 31.—Five men killed outright, and five others badly burned and otherwise injured, in the toll of an explosion which rocked the workings of the Hinton Collieries here at 4:30 on Wednesday afternoon. Four of the men who were killed died instantly at the working face of the seam they were cutting, while the fifth was able to crawl away from the scene of the explosion for about 1,000 feet. Fire damp overtook him, however, and his attempt at self-rescue proved futile.

TEXTILE PROBE FINDINGS GIVE TARIFF BLAME

Responsibility To Employers Emphasized in Lengthy Report

OTTAWA, March 31.—Responsibility to the community of employers in tariff-protected industries was emphasized in the 180-page report of Mr. Justice W. R. A. Targenton on the textile industry tabled today in the House of Commons by Finance Minister Charles Dunning.

The report contained findings resulting from an inquiry into Canada's textile industry that lasted from March, 1936, until March, 1937.

Judge Targenton devoted much of his report to labor relations and recommended shorter hours of work, uniformity in piece-work payments and, in view of the fact that industrialists have themselves become grouped in trade associations, recognition of the workers' right to do the same thing.

How F.D.R. Looks To His Critics

Is He Fascist?

Or Communist?

Does He Listen?

Or Just Tell 'Em?

With the second year of President Roosevelt's second term of office well on its way, a parade of advisers — amateur and professional — streams through the executive offices in Washington, bent on telling Mr. R. how to run the country or trying to find out how the President is trying to run the country. Most of the White House visitors have certain convictions and prejudices before they go into these conferences and so has the President. It is an open question how much changing of opinion is done on either side, but the pictures above, taken at intervals during the past few years, reveal in striking fashion that a President of these United States must be, or can be, or is, "all things to all people."

WARREN SPRINGS, Ga., March 31.—President Roosevelt, charging organized opponents of the United States government reorganization program had "planned jobs under every bed," asserted in a letter made public today he had "no inclination to be a dictator."

"As you know, I am as opposed to an American dictatorship as you are, for three simple reasons."

"1—I have no inclination to be a dictator."

"2—I have none of the qualifications which would make me a successful dictator."

"3—I have too much historical knowledge of existing dictatorships to make me desire any form of dictatorship for a democracy like the United States of America."

The name of the president's correspondent regarding reorganization was withheld because, it was said in a prefatory statement, "he did not want to write for publicity purposes."

The letter was dated the same day the president asserted at press conference that Senate passage of the reorganization bill proved that body "cannot be purchased by organized interests based on direct misrepresentation."

ALL THEN AGREED

In the communication today he recalled that when he proposed the legislation over a year ago all parties

Free High Schooling In Alberta Near End, Fear

Collapse of Present Upper Grade Education Warned Unless Province Makes Further Adequate Provisions

Alberta School Trustees' Association Advises Rowell Commission Real Property Won't Support Institutions

The Rowell commission was warned Wednesday that secondary education in Alberta could not continue to be provided free on the present tax setup allotted to education.

"Unless more adequate provision is made for it, the whole scheme of secondary education will collapse," A. E. Ottewell, of the Alberta School Trustees Association, declared.

Local school boards could not continue to maintain it with revenue derived almost exclusively from taxes on real property, he said, the provinces unless they were given additional revenue by statute, likewise advocated national aid for education, stressing the general level of education throughout the country as well as the degree of equality of educational opportunity enjoyed by all.

REFUNDING OF ALBERTA DEBT SAID POSSIBLE

Bondholders Would Accept Lower Interest With Guarantee, Belief

Belief is held that a successful plan for the refunding of Alberta's public debt at lower interest rates could be consummated with the consent of the bondholders if the Dominion government came to the assistance of the province and guaranteed repayment of the refunding loan.

The major submission made to the Royal Commission on Dominion-Provincial Relations in the brief presented by R. D. Tighe, K.C., on behalf of the Protective Committee in Alberta of private holders of Alberta savings certificates.

Telegraphic Vote Of Unions Saves Jobs For Two Months At Least

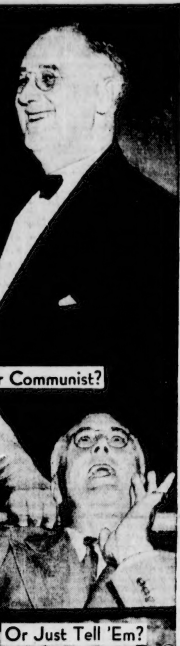

OTTAWA, March 31.—A telegraphic vote of union officials from coast to coast Wednesday saved for two months at least the jobs of 1,800 Canadian National Railway shop employees in the Point St. Charles shop, Verdun, Que., who were scheduled to be laid off Friday, April 1.

The union representatives in these two regions, taking in all the provinces of Quebec and the Point St. Charles shop, Verdun, Que., agreed to have the shop workers go on an 18-day work month in April and May.

In the Atlantic region the vote was for insistence of seniority rights as provided for in the union's agreement with the railway and about 300 men at the Moncton, N.B., and Miramichi, N.B., shops will be laid off Thursday.

COLOGNE, Germany, March 31.—Chancellor Hitler, speaking in this Rhineland city two days ago, said the tramp of German military boots for the first time since the Great War, hurried across the Rhine to the west.

He said the German army had night to give Germany what it demanded.

We don't want to carry out in other nations," the Fuehrer said, "but we desire that our countrymen should receive a German peace."

These complaints, he made in a radio broadcast to 1,500,000 German soldiers, although he did not mention the German nation by name.

Dunning Invites Social Creditors to Start Own Bank

By J. F. SANDERSON, Canadian Press Staff Writer.

OTTAWA, March 31.—Social Creditors were invited Wednesday by Hon. Charles Dunning, minister of finance, to set up their own bank in Alberta as a testing ground for their monetary theories.

The finance minister challenged the Social Crediters to apply to parliament for a bank charter and put it in operation in Alberta.

There are three Social Crediters in the legislature, but they are not members of the Social Credit party.

The Alberta legislature passed a resolution at the first session after the 1935 provincial election instructing the Alberta government to explore the possibility of establishing a bank in the province but no single bill ever has been made for a charter.

The finance minister made his

CALGARY, March 31—Stranded in a car all night, after it had plunged into a snow-filled ditch, A. H. Goodall, Calgary lawyer.

reached Calgary safely last night.

At dawn Wednesday, Goodall and his companion made their way through giant drifts to a nearby farm home where they were cared for until this afternoon when the storm cleared. The farmer aided

them to drag the car from the ditch and the journey into Calgary was made without further mishap.

In the face of the worst blizzard in years, Goodall started from Drumheller, 95 miles northeast of here, early Tuesday afternoon. Bucking against blinding snow they had gone only 32 miles when the car slid from the highway into the ditch.

THE RECORD IS PERFECT! WE'LL PLAY IT ON A PHONOGRAPH, BACK OF THE CURTAIN, AND EVERYONE WILL THINK I'M DOING THE DEBATING!

Freckles and His Friends

—By Blosser

IT WAS A SWEET IDEA TO MAKE A RECORD OF YOUR SPEECH! NOW IF YOU GET STAGE FRIGHT, JUST KEEP MOVING YOUR LIPS AND THE RECORD WON'T EVEN FLUMBE A LINE!

BUT DO YOU THINK ANYONE WILL GET WISE THAT IT'S ONLY A RECORDING OF YOUR VOICE?

IF IT FOOLED MY OWN MOTHER, IT'LL FOOL AN AUDIENCE!

Freckles and His Friends

—By Blosser

LAST NIGHT I WAS PLAYING THE RECORD UP IN MY ROOM—MOM THOUGHT IT WAS ME AND TOOK TO WASH HIS HANDS AND COME DOWN TO DINNER!

Curious World

—By William Ferguson

IN KANSAS, THERE ONCE LIVED TURTLES TWELVE FEET LONG!

DEER ATTACK AND KILL RATTLESNAKES! THEY JUMP INTO THE AIR AND DESCEND UPON THE SNAKE WITH THEIR SHARP HOORS, AND THEN SPRING AWAY.

SCIENTISTS SAY: THAT THERE IS NO SUCH THING AS A SPECIAL BRAIN FOOD!

A specimen of the giant turtle that once swam the Kansas seas may be seen at the Peabody Museum, at Yale University. It far exceeds in size any turtle living today. The creature probably became extinct when larger and more voracious animals developed in the ancient seas.

NEWS: How many square feet of skin do you have on your body?
